#### Field Training Overview:

The College of Education at Qatar University is committed to provide high quality education that qualifies student teachers to take part in the development of the local and international communities. There is no doubt that the field training course is one of the most important courses that is considered a great opportunity for the student teachers to apply what they learned and acquired during their studies in the college in terms of knowledge, skills and attitudes in a practical way to prepare for their journey as teachers.

This Handbook overviews the Field Training Course at the College of Education, Qatar University. The Field Training Course provides student teachers with the opportunities to apply and reflect on acquired knowledge and develop and refine knowledge, skills, and attitudes in a classroom setting due to the growing interest in training-based education and the acquisition of field-based training experience.

In each of the practical education experiences that the College of Education provides, the student teacher is assigned to local schools, educational institutions, or concerned bodies under the direct supervision of the mentor teacher. The student teacher must complete the various activities through experiences that require observation, reflection, and implementation of the set of skills and knowledge that have been learned.

The following rubric shows Field Training Course assignments based on the College of Education's special learning outcomes within the conceptual framework, and its achievement of national professional standards for teachers. It should be noted that the student teacher graduates with a first-level teacher license.

For more information on the Teacher Licensing policy, please see the following link:

http://www.edu.gov.qa/Ar/Documents/SEC2222016.pdf

#### Qatar National Professional Standards for Teachers:

- 1. Planning to develop students' performance and achievement.
- 2. Involving students in the learning process and develop them as learners
- 3. Providing a safe, supportive, and challenging learning environment.
- 4. Assessing student learning and use assessment data to improve their achievement.
- 5. Demonstrating high quality professional practices and participate in continuous professional development.
- 6. Maintaining active partnership with parents and society

#### Course Assignment Rubric based on the College of Education Learning Outcomes:

College of Education Learning Outcomes	National Professional Standards for Teachers	Evaluation (Assignments/Students work)
Teaching  Content: Apply the key theories in the specialization field.	5 4 2 1	<ul> <li>Instructional Unit</li> <li>Mid &amp; Final term Assessment</li> <li>CEESs</li> <li>Action Research</li> </ul>

Scholarship  Problem-Solving: Arrive at data- informed decisions by systematically examining various factors and resources.	6 5 4 3 2 1	<ul> <li>Instructional Unit</li> <li>Mid &amp; Final term Assessment</li> <li>CEESs</li> <li>Action Research</li> </ul>
Scholarly Inquiry: Actively engage in scholarship by learning from and contributing to the knowledge base in education.	6 5 4 3 2 1	<ul> <li>Instructional Unit</li> <li>Mid &amp; Final term Assessment         CEESs</li> <li>Reflective Journal</li> <li>Parent Contact Report</li> <li>E-folio</li> <li>Action Research</li> </ul>
Leadership Ethical Values: Apply professional ethics on all Instructional contexts.	6 5 4 3 2 1	<ul> <li>Mid &amp; Final term Assessment</li> <li>CEESs</li> <li>Parent Contact Report</li> <li>Reflective Journal</li> </ul>
Initiative: Lead positive change in education.	654321	<ul> <li>Parent Contact Report</li> <li>Mid &amp; Final term Assessment</li> <li>CEESs</li> <li>Action Research</li> </ul>

#### Field Training Terminology:

The Handbook sets out the essential information and guidelines for the student teacher to successfully plan and implement hands-on experience. It is necessary to consult this Handbook at the beginning and during the field training, as the College of Education aims and expects the student teacher to become an educator who is professional enough to facilitate the education process for their students in the future.

You will find the following terminologies in the Handbook and their explanations below:

- Student teacher: a male or female student of the College of Education registered in the field training course.
- Candidate: a male or female student of the College of Education registered in the field training course.
- Mentor: the selected teacher under an agreement between the College of Education and the selected
   schools assigned to guide and assist the student teacher during the field training period.
- University Supervisor: a faculty member appointed to supervise the student teacher, assist him/her,
   and evaluate his/her performance.
- National Professional Standards for Teachers: standards are the singular criterion. A term used to judge quality in light of what is included in this term describing what is expected to be available in terms of skills, knowledge, duties, situations, values, and attitudes or the ability to solve problems and make decisions, which are essential for teachers and school leaders to work through their careers in schools.
- **Seminar:** the college supervisor's meetings with the student teacher during the course period.

#### **Course Assignments Rubric**

Throughout the field training course, the student teacher is required to submit the following assignments:

Lesson Plans	Lesson plans must be written and prepared by the student teacher for every lesson – partial or whole – that he/she will be teaching.
Reflective Journal	Create a journal entry for each week of the field training. See the guidelines in the Appendix.
Class Observations	Follow the guidelines for class observations. See the guidelines and the forms in the Appendix.
Parent Conference Report	Arrange a meeting with one of the students' parents and fill out the form in the Appendix.
Assessment Analysis	Complete the assessment analysis assignment/ test as described in the Appendix.
Technology Lesson	Plan and teach a single lesson in which students use technology is pivotal (students must use technology to learn the concept or skill to complete the lesson).
Unit Plan	Create an Instructional unit for one of the topics in the curriculum. See the guidelines in the Appendix.
Mid & Final term and Reflections	Two reflective journals must be submitted about student-teacher progress in the field training — one for the Mid-term Evaluation (Week 5) and one for the Final Evaluation (Week 10). The reflective journals are due the week before each three-way meeting. See the guidelines in the Appendix.
Mid & final term Evaluations	Evaluations must be completed using the CEES model by the middle and the end of the field training period and student teaching assignments. The student teacher, mentor, and university supervisor will discuss the student teacher's progress. See the guidelines and the forms in the Appendix. (including teaching, scientific research, and leadership).
E-Folio	A file created electronically on the Taskstream website includes evidence of the student teacher achievements and his/her reflections on them, whether from what s/he achieved in the field training course or previous courses.

Tasks' Portfolio	A file containing copies of all the daily and weekly tasks performed by the student teacher during the field training course, which must be updated on a daily basis and saved on a (USB), delivered at the end of the training period.
Mentor and University Supervisor Assessment	The student teacher evaluates the university supervisor and the mentor. <i>See the forms in the appendix</i> . This item is completed at the end of the semester and will be treated confidentially and without mentioning any names.
Action Research	The student teacher conducts action research and writes an action research report according to the context of each school, including defining research questions and reviewing previous studies.  S/he collects and analyzes data, discusses the findings, and explains how the results can be applied to improve learning and teaching in each student teacher classroom. The field training Handbook includes the assessment rubric of action research.

The reflection journals must be submitted weekly through the blackboard to the university supervisor or an email to the seconded supervisor.

Please note that all the above tasks must be submitted at the end of the training period, with a portfolio containing teaching plans, mentor, and the university supervisor's observation templates.

All information must be updated and available to the supervisor upon his/her visit to the student teacher at the school.

#### **Field Training Course Requirements**

The student teacher should understand that field training is a required university course in which success requires a minimum grade of C. As such, some tasks must be completed. The following descriptions will help fulfill field training requirements and produce outstanding work that can be included in the e-folio and assignment portfolio.

a. E-Folio: Creating an E-folio on TaskStream is a mandatory requirement for all the College of Education programs. It will document the student teacher professional experiences

competence in the selected teaching profession. The student teacher e-folio will be evaluated at the end of the training period.

- **b. Portfolio:** The student teacher prepares and updates the file with the need to inform the university supervisor about it on each visit. This file will include six subsections/ classified sections as follows:
  - **1. General information** includes clauses such as empty forms, student teacher personal information, and his/her class timetable.
  - 2. Notes/ Observations student teacher collects copies of all the notes forms during the field training period. *Guidelines and forms are attached in the Appendix*.
  - 3. Lesson Plans student teacher must use the lesson plan form provided in the handbook appendix for every lesson he/she teaches and for all the lessons related to the tasks of the teaching unit plan. In addition, he/she must take the mentor's signature on any lesson plan before adding it to the paper file. This part's lesson plans are arranged from newest to oldest. Each plan must include a reflection, which can be written on the back of the lesson plan form or on a separate sheet of paper after teaching the lesson.
  - 4. Mentor/Supervisor Assessment and Feedback The student teacher's responsibility is to urge his/her mentor to evaluate and give him/her written feedback whenever possible (at least once a week). The mentor can use the forms (Class Performance Observation and CEESs) attached in the handbook appendix. The student teacher has to keep the evaluation copies in his/her paper file, whereas the mentor and the university supervisor will keep the originals. The more formal assessments will be conducted electronically in the middle and end of the field training by using the Clinical Experience Evaluation Survey (CEES).
  - **5. Reflection Journals** student teachers write down his/her observations and reflections in the Weekly Journal. The journal should be accessible to the university supervisor to comment on the student teacher's observations and answer his/her questions.
  - **6. Course Assignments** student teacher must attach all the field training assignment documents and accurately complete and approve them by the university supervisor.

#### c. Reflections (What and When) -

Studies have shown the importance of reflection, consideration, and observation in developing educators' practices, especially teachers. Hence, the assignments and responsibilities of the field training require a lot of reflection and observation.

- 1. After teaching the lesson, student teachers have to reflect on their practices by using the following questions:
  - a. What went well in the lesson, and why do you think so?
  - b. What can you do to improve your lesson next time?
  - c. How did you assess student's learning?
- 2. Reflective Journal weekly—student teacher writes down the perspectives and explanations about the field training events. *See the Reflective Journal Rubric in the Appendix*.
- 3. Mid & final term reflection journals The student teacher must complete the self-evaluations before the mentor and university supervisors assess the student teacher's mid & final term performance. *See the forms in the Appendix*.
- **d. Parent conference Report/Log:** in consultation with the mentor, the student teacher sets an appointment and holds at least one meeting with a student's parent. This meeting should be documented using the Parent Conference Report-Log Form in the Appendix.

The student teacher also has to contact more than one of the student's parents and keeps contact logs with this parent, including phone calls (attempted calls, informal conversations in the school hall, meetings, home visits, and notes). See the contact log in the Appendix.

#### e. Study Unit:

Prepare a study unit plan that consists of all the lesson plans and supporting materials. The unit
aims to develop rich and specific learning experiences and situations to teach students the target
concept. It should also include using technology for learning, multiple opportunities for active
student participation, differentiated teaching, and assessment to enable different learners to
succeed.

#### 2. Details:

• The unit consists of a set of sequential lessons within the concept. The sequence should be logical and related to the concept.

- The unit should have five lessons, including a review lesson after the first four lessons;
   this lesson includes the previous four lessons and focuses on the different skills taught in the first four lessons.
- The unit should reflect the curriculum and subject matter presented, including the following:
  - Introduction
  - Standards
  - Objectives
  - How to present these lessons (strategies, teaching methods, modern techniques)
  - Five lessons
  - Assessment

The five lessons must vary according to the subject branches.

It is important to consider the diversity of cognitive, emotional, and skilled objectives. The objectives must also be linked to the standards set, and the age group for which the study unit has been prepared must be considered mentally and intellectually.

As for the five lessons, they do not have to be from the textbook of the State of Qatar; Rather, they must come from outside the book entirely and has nothing to do with the topics in the book.

As for delivering these lessons to the learners, it should include teaching strategies that will be used to communicate information and experiences to learners. It is essential to diversify teaching strategies and methods to be varied in presenting linguistic information. This is in addition to using Instructional practices and modern technologies to diversify the teaching process.

It is also necessary to diversify the assessment: between the pre, formative, and summative assessment, and questions should vary between essay questions in both types: (short and long) and objective questions, with the need to document the texts that were quoted from their sources; so that these texts are original and not artificial; created for unit preparation.

**f. Field Training Seminar:** *see* the details in the Course Expectations section.

#### g. Action Research:

The student teacher must conduct action research and writes an action research report according to each school context, including identifying research questions, reviewing previous literatures, collecting and analyzing data,

discussing the findings, and explaining how the results can be applied to improve learning and teaching in the classroom for each student teacher. *See the Action Research Rubric in the Appendix*.

#### Student teacher Responsibilities and Tasks:

After the student teacher enrolls in the course, schools are determined in cooperation between the College of Education and the Ministry. Taking into account that the student teacher is only entitled to communicate with a school or institution with the knowledge or approval of the College of Education due to the necessity of signing an agreement with the school and clarifying roles and responsibilities.

The following section presents a general framework for developing student teacher experiences during the field training course. This manual aims to focus on the skills learned during the teaching period of this course and to achieve integration between the learned knowledge and skills and the extent to which they are applied in the classroom.

#### **Field Training Period**

The field training course in the College of Education takes an entire semester and includes:

- A (two-hour) orientation, where all the mentors, university supervisors, and student teachers meet.
- 18 hours of seminars at the beginning of the semester before the start of the course tasks at the school or facility. These introductory seminars aim to prepare the student teacher for the teaching experience and provide him/her with the necessary forms and information for field training.
- The teaching training period in schools is at least 300 hours, which often ends over ten weeks, with the possibility of extending the period to compensate for absence or permission.

The following timeline describes the activities in more detail during this period of (10 weeks) that the student teacher spends inside the classroom with the mentor.

• Weekly seminar for two hours per week (a total of 20 hours).

#### Student teacher Responsibilities and Roles in Details Weekly

The following sections explain Field Training Course assignments and the activities, where the responsibilities range from classroom observation and partial teaching to full teaching responsibility. Afterword's student

teacher participation in the classroom decreases from complete to partial teaching until the mentor returns to be the primary teacher.

#### Week 1: observe, general assistance, co-plan, and co-teach

The student teacher will observe the classroom environment, classroom management techniques, teaching strategies, and assessment practices for the first week. The student teacher is advised to attend and follow classes for different teachers in addition to the mentor. (*Observation forms are in the Appendix*).

During this period, the student teacher should start writing self-reflections (Reflection Journal) to ask the mentor questions about observations and conclusions after each class observation to achieve the ultimate goal of improving students' understanding. These Journals should focus on how to manage the classroom and use instructional strategies and evaluation practices to improve student learning quality and develop student teacher capabilities.

The main tasks of the student teacher are:

- **a. Assistance:** These tasks support the mentors' role in monitoring student progress and enable them to become acquainted with the students.
  - Check attendance.
  - Distribute papers or materials during instructional activities.
  - Help in grading students' assignments.
  - Monitor students' work in their groups and provide one-to-one assistance.
  - Helping students with their late work or lessons.
- b. Co-plan: The field training period is a golden period for the student teacher to learn how to plan in the school, in which the curriculum and standards are unified models used in all schools by the Ministry. The student teacher assists the mentor and colleagues in lesson planning and is an initiator as these are leadership qualities and professional commitment. However, each school has its privacy in the mechanisms of preparation and assignment of tasks.
- c. Co-teach: It is not preferable to do full class llessonsduring the first week. However, doing the lesson, finishing, or doing some short activities in the class, is a good way to start getting to know the students and using the student's own knowledge and skills. Co-teaching allows student teachers to obtain some experience with the mentors support. It also provides student teachers to develop a professional relationship and cooperation between the mentor and the student -teacher.

#### Week 2: observe, general assistance, co-plan, and co-teach

Week 2 expectations involve continued observations – this week's observations are on formative and summative assessment practices and observing both classroom management and instructional strategies in the lesson.

#### The most important tasks are summarized as follows:

- a. Observation: in the second week, observation focuses on all teaching tasks, including teaching strategies, classroom management, and assessment. See the observation forms in the Appendix.
- **b. Assistance:** continue the tasks from the first week, with effort and more interaction with individual students as well as group work.
- c. Co-plan: Continue co-planning by adding a part of planning for some short activities at the beginning and end of the lesson. The teacher must discuss his/her plan and idea with the mentor, then teach the students.
- d. Co-teach: Continue co-teaching but take on a larger role with a single group of students, add a section by repeating the same activity, or teach the activity at a different grade if possible.
  The mentor teacher will determine how appropriate some tasks are for the student teacher.
  He/she may hesitate to add tasks or provide early challenges. Therefore, student teachers must demonstrate enthusiasm, initiative, and preparation without affecting the mentor teacher's tasks and responsibilities towards the class and the school.

### Week 3 & 4: observe, provide general assistance, co-plan and independently plan, co-teach and independently teach

Activities during weeks 3 and 4 move student teachers towards more independence with the students, but still under the close supervision of the mentor. In Week 4, the student teacher will take on more responsibility in preparation to start teaching in week 5.

- a. Observe: The observations in the third week are to combine classroom management strategies, instructional strategies, and assessment practices in the same lesson. See the forms in the Appendix.
- **b. Assist:** in week 3, the student teacher continued doing the tasks from the first and second weeks and added more interactions with individual students as well as group work. By the end of the

fourth week, the student teacher should start teaching full-time — all the lessons, different classes, and/or multiple topics.

- c. Co-plan and independently plan: student teachers continue co-planning and independently plan the main activity for different topics or classes, taking into account the school's policies and the mentor teacher's tasks. Always discuss ideas with the mentor teacher and supervisor. The student teacher should be ready in week 5 to do the full teaching load.
- **d. Co-teach and independently teach:** continue co-teaching and increase independent teaching experiences in different ways, such as:
  - Divide the class into two groups: each student teacher and the mentor teacher teaches a group.
  - Divide the instructional time— so that the student teacher or the mentor teacher
    introduces the lesson and demonstrates skills while the other person carries out the
    practices and the evaluation part of the lesson.
  - One person may present the lesson content while the other supervises the cooperative group work.

When you teach independently, the mentor teacher should be in the same room as an observer, not a coteacher.

#### Week 5-9: Full Responsibility for Teaching

The period of full responsibility for teaching begins in week five and last until week 9. A gradual increase in teaching activities has led to this time of the student teacher taking full responsibility based on the teaching load assigned to him/her. It will be his/her responsibility to plan and teach as a regular teacher in the classroom and take over all the tasks that are related to teaching. The mentor teacher will follow up on the student teacher's plans, observe how the student teacher is teaching, and provide helpful feedback to improve work.

#### Week 10: Scaling Back Responsibilities

During the final week, the student teacher gradually withdrawing from his/her teaching role. The mentor teacher resumes her/his teaching responsibility throughout the week until she/he is again the primary instructor. The student teacher should continue to assist and observe until the end of the week.

Note: The following table lists student teacher tasks during the semester. See the related forms attached in the Appendix. Any modifications made by the student teacher must be discussed first with the mentor teacher and the university supervisor.

#### Timetable detailing student teacher responsibilities and roles weekly

Week	Suggested tasks
Two weeks	- Course Seminar
before joining	- Introductory meeting
the school	
Week 1	- Observing and criticizing different lessons
	- Assisting the teacher during teaching (individual or partial teaching)
	- Co-planning (teamwork, if available) with the mentor
	- Reflection journal
Week 2	- Co-planning with the mentor (working team)
	- Partial teaching
	- Full teaching.
	- Observing different and criticizing lessons
	- Reflection Journal
Week 3	- Co-planning with the teacher (working team)
	- Partial teaching
	- Full teaching.
	- Observing lessons
	- Reflection Journal
Week 4	- Co-planning with the teacher (working team)
	- Partial teaching
	- Individual lessons planning and teaching
	- Observing lessons
	- Reflection Journal
Week 5-9	-Teaching full teacher quota and individual planning.
	-Reflection journal

QATAR UNIVERSITY	-Course tasks		
Week 10	- Assisting teacher (teaching individual or small groups)		
	- Full planning for two sessions and deliver it.		
	- Observing lessons		
	- Reflection Journal		
Week 11	-Handing over all tasks by Sunday week 11, and making up for days of absence.		

#### Course Expectations

The course tasks have been clarified through the previous sections and provisions, and here is an explanation of the most important expectations:

#### School Schedule

During this ten-week period, the student teacher field training begins when teachers are required to arrive at school until the time teachers are released at the end of the day -Sunday through Thursday.

Student teacher is not allowed to leave the school during the school day without the prior approval of the university supervisor and the field training unit. In case of illness or any other reason for absence, the student teacher is responsible for informing the mentor, the university supervisor, and the field training unit as soon as possible. Student teachers, mentors, college supervisors, and the field training unit should share their contact details such as e-mail, telephone or SMS at the beginning of the course.

#### Field Training forum (Seminar)

A weekly seminar is scheduled for the student teacher with the university supervisor. The topics for the seminar include accessing resources, dealing with unexpected situations that arise during the field training, and Qatar University procedures as part of graduation requirements.

#### Seminar Attendance

The university views seminar attendance as an individual responsibility of the student teacher,

who is expected to:

Attend the weekly seminars determined by the university supervisor,

- To complete all assignments as required,
- A minimum of 2-3 optional seminar sessions will be held to complete the e-file, paperwork and forms
  after the end of the field training.

University rules regarding absences will be followed. If an absence from Seminar is necessary, student teacher should communicate with the university supervisor (regarding the situation). Failure to do so means meeting with the student teacher to find out the reasons for this and/or canceling his/her field training (See the attached pledge).

#### Field training policies and procedures:

#### Attendance:

Since the field training is a university course and is a required part of the college programs, the attendance policy—including the Seminar—is in accordance with Qatar University's attendance policy, which is fully described in the QU Student Handbook.

During the training field at the university:

- Three days' absence for illness or other urgent circumstances are permitted. Student teachers should make up the time at week 11, i.e., after the training period. Sick leave should not exceed seven days.
- If student teachers miss a day or take permission for more than 2 hours, student teachers must make up the time at week 11.
- If a serious condition requires that student teacher miss an extended number of days, he/she should make sure to discuss it with the university supervisor **before** the absence, if at all possible. Arrangements can be made to complete the field training based on the specific situation.
- Since the absence is for more than three days and without a medical excuse, the student teacher is considered to have failed the course because s/he exceeded the permissible percentage.

#### Holidays and Staff Development Days

During the field training period, student teachers will observe the holidays scheduled by the ministry to which they are assigned, regardless of the holidays observed by Qatar University. Student teachers are expected to be

at school on staff development days and to participate in professional development programs when appropriate.

#### Assessments

Written documentation of student teachers' performance is vital and should be specific, systematic, and include suggestions for improvement. College supervisors and mentor teachers use the assessment forms found in the Appendix for regular written assessments. Making multiple copies of the completed checks forms allow them to be shared and discussed weekly with student teachers by both the university supervisor and the mentor teacher.

The supervisor and mentor teacher will each complete several assessment forms regarding the student teachers' progress. The Mid-point assessment is held during the fifth week on the progress to date. If they have not made sufficient progress, a plan must be developed with collaboration among the mentor, the supervisor, and the student teacher, and all members must guide this will be the guide for student teachers' continued progress during the second half of field training. The Final Assessment (during the 10th week) is the summary assessment and will be the focus of the tripartite meeting.

Student teachers should review both assessments CEESs, Sign and date them and make sure the assessors also sign. These forms are added to the academic file when they are sent to Field Experience Unit after all signatures are added.

It is also requested that student teachers, supervisors, and mentor teachers involved with field training assignments complete a program assessment form to provide information about the strengths and weaknesses of the teacher preparation program. These program assessment forms will be available in a Seminar session near the end of the semester, considering the following:

- 1- The college supervisor is responsible for assessing student teachers' performance in schools.
- 2- The College of Education might form a committee to investigate the differences between mentor teachers, university supervisors and school evaluations. The score approved by the committee will be assigned to the student teacher.

3- If the university supervisor notices no progress in the student teacher's performance, a specialized committee from the College of Education will evaluate the student teacher two weeks before the end of the student teaching. The score approved by the committee will be assigned to the student teacher.

The student teacher (student teacher) has no right to object to the committee's decision.

#### Re-Assignment or withdrawal from Field training

The student teacher must respect and abide by Qatar University and the school's instructions and rules. If a student teacher is experiencing significant difficulty during the semester, some procedures and practices may provide options and alternatives.

The student teacher can discuss the matter with the mentor and the university supervisor and study the case, it is necessary to document the meeting and what was agreed upon. If a solution is not found, and depending on the specific situation for each week, one of the following decisions can be taken:

- a. The student teacher may be reassigned to another class for the remainder of the semester and may be reassigned to another school.
- b. B. If the student teacher does not comply with the school and unit's instructions, and the midterm performance assessment is less than acceptable, the student teacher is deprived of completing the field training and is not entitled to request a transfer to another school.
- c. It is possible to withdraw with the option to repeat the field training course in the following semester.
- d. Field training can be stopped with an "incomplete" degree according to the university's schedule and instructions,. If the student teacher is completes or upon completing the field training requirements, the "incomplete" grade can be changed to the due grade.

Sometimes a student teacher cannot finish his/her field training for various reasons. Occasionally, a student teacher/must be asked to leave the program completely. The following are the basis for such an action:

a. If there is mutual consent and agreement by the student teacher, cooperating school, and university supervisor for reasons of illness, injury, or other unforeseen problem.

If the student teacher cannot establish and maintain a satisfactory performance level in classroom instruction and management, this continues after repeated conferences and support from the mentor teacher and university supervisor.

- c. If the student teacher does not abide by the policies of the cooperating school.
- d. If the student teacher demonstrates unprofessional conduct towards supervisors, school personnel, or students.

If it becomes necessary to suspend a student teacher's field training, specific policies and procedures are in place to finalize the process. Details of the process are outlined in the QU Student Handbook.

#### Student teacher Responsibilities:

These are basic tips and guidance for the student teacher; please focus on them, especially as they assist the student teacher in understanding his/her priorities:

#### Dedication

- Make field training a top priority for the semester.
- Report to school on time, and remain until the designated end of the school day.

#### Organization

- Turn in a weekly teaching schedule to your university supervisor. Notify him/her if changes occur
  in this schedule.
- Notify the school, the mentor teacher, and the university supervisor as soon as possible if absence due to illness is necessary.

#### Preparation

- Provide the mentor with copies of your written lesson plans two days before your planned time to teach the lesson(s).
- Prepare all teaching materials/technology in advance to alleviate misuse of time and misbehavior of students.
- Read a variety of resource materials beyond the text materials to add enrichment to the lesson.
- Plan for the most efficient methods for carrying out classroom procedures and lesson transitions.
- Allow for flexibility in teaching by planning for interruptions or time constraints.

#### Teaching

- Know and understand the major principles and concepts of the learning material to ensure high levels of teaching competence.
- Arrange a sequence of the instructional events to enhance student understanding.
- Observe the behavior and learning styles of students from diverse cultures to create a classroom atmosphere that enhances multicultural understanding.
- Incorporate various teaching strategies to provide individual learning styles and better develop inquiry and problem-solving skills.
- Become competent in creating and using instructional materials and techniques consistent with the students' progressing level.
- Present directions in a clear, sequential manner.
- Develop critical thinking by using higher-level questions.
- Choose a variety of assessment tools and teach students to use self-evaluation.
- Provide lesson activities that require cooperation and teamwork.
- Encourage creativity by accepting students' ideas to enrich class experiences.

#### **Student Relations**

- Create and maintain a positive learning environment by demonstrating respect for every student.
- With the mentor, develop a specific classroom management plan that complements the existing plan and your strengths as a new teacher.
- Maintain a firm but friendly relationship with each student.
- Be aware of the student's social and emotional needs.
- Be a respectful listener.

#### Research/Scholarship

- Be aware of opportunities to participate in discussions with other teachers about the profession of teaching.
- Be aware of current research in a field of education that interests you.
- Be aware of opportunities to extend student learning beyond the classroom and into the local community.
- Continuously try to add new research-based strategies to your collection.
- Be aware of advances in formative and summative assessments and their effective application in the classroom.
- Be aware of and use resources and resource people already available at your placement school,
   e.g., IT specialist, librarian, school nurse or doctor, art and music teachers, etc.

#### Leadership

Wear appropriate professional attire.

- Welcome constructive suggestions and incorporate them in subsequent planning and teaching.
- Be discreet with any confidential information.
- Become familiar with Qatari school organizations and programs by attending school and/or parent meetings when appropriate.
- Attend all field training seminars.
- Collaborate with other faculty members or student teachers within your building in sharing instructional ideas, materials, and technology.
- Establish professional relationships by interacting with school personnel (administrators, faculty, and support staff), students, and parents.
- Be familiar with school policies and procedures.
- Be immersed in teaching experiences that allow for a smooth transition from the role of the student to the part of being the classroom teacher.

#### Mentor Responsibilities:

These are basic tips and guidance for the mentor teacher. Please focus on them, mainly as they help the student teacher understand his/her priorities.

#### Dedication

- Be friendly but professional with your student teacher.
- Complete your assessments and other paperwork in a timely fashion.

#### Orientation

- Attend the QU Orientation of the field training with your student teacher.
- Direct and inform the student teacher about:
- The students
- The school calendar and daily schedule
- The building facilities and resources
- Staff administrators, teachers, and staff
- School policies and procedures
- The nature of the local community
- Professional opportunities.

#### Preparation

- Prepare the classroom students to receive the student teacher as a professional co-worker.
- Prepare a workspace for the student teacher with a desk, chair, shelves, and curriculum guides.
- Discuss the new student teacher's placement with the college supervisor, and be sure to bring up any concerns.

#### **Teaching**

- Provide a gradual induction to the teaching process by modeling appropriate planning and teaching and explaining the purpose of various strategies.
- Demonstrate methods and resources for creating daily lesson plans that are sequential and integrated.
- Demonstrate the use of curriculum guides, teachers' guides, and other resources for your grade/subject level.
- Explain the philosophy of classroom management, the specific techniques you use, and how management occurs when you and the student teacher are both in the classroom.
- Choose a specific time for planning together on a daily/weekly basis.
- Explain the methods of keeping records for attendance, tardiness, grades, conduct, and any others required by the school.
- Discuss emergency and health procedures, such as fire drills, sudden illness, and fighting.
- Guide the student teacher toward greater effectiveness by:
- Monitor an effective use of time.
- Requiring written lesson plans two days in advance of teaching
- Creating a climate that encourages questioning and self-reflection
- Praising and encouraging
- Keeping interactive lines of communication open
- Discussing problems frankly, one at a time
- Sharing professional experiences and materials
- Capitalizing on the special interests, talents, and abilities of a student teacher to enrich the curriculum
- Encouraging the use of alternative instructional and management techniques
- Guiding the acceptance of varied school duties and tasks representing a teacher's workload.
- Allow the student teacher to assume full responsibility for the classroom instruction and management for at least five weeks during the semester.
- At some point during the student teacher's time with you, provide specific guidelines on setting up a classroom for the beginning of the year.

#### Research/Scholarship

### Assist the student teacher in researching, developing, improving, and identifying the best strategies and practices through the following items:

- Promote daily interactive discussions with your student teacher; encourage reflective thinking about the strengths and weaknesses of his/her effectiveness in the planning and teaching process.
- Assist the student teacher in implementing recommendations received during the daily evaluation sessions.
- Confer with the university supervisor continuingly. Performance problems should be identified and discussed as early as possible.
- Allow the student teacher time to confer with the university supervisor after an observation.
- Write evaluations of the student teacher's progress and discuss them with him/her using the Lesson Observation Form found in the *Appendix*.
- Discuss your observations with the student teacher and suggest changes he/she might make to be more effective.
- Participate in a three-way evaluation conference with the student teacher and supervisor at the midpoint and final evaluations and conferences.
- Use the weekly observation forms to support your evaluations using the Clinical Experience
   Evaluation Survey CEES at the mid-point and final three-way conferences.

#### Leadership

- Accept each student teacher as an individual and refrain from comparing her/him with previous student teachers.
- Allow the student teacher to attend all required seminars, which are part of her/his clinical experience.
- Leave the student teacher alone in the classroom so that she/he can feel independent and have the
  opportunity to learn from her/his mistakes. Be sure this occurs gradually, and indicate where you may
  be located in an emergency.
- Introduce the student teacher to professional journals, resources, and organizations.
- Involve the student teacher in faculty and curriculum meetings, parent meetings, and parent/teacher conferences when appropriate.

#### University Supervisor Responsibilities:

These are basic tips and guidance for the university supervisor. Please focus on them, especially as they help the student teacher understand his/her priorities

Dedication

- Allow sufficient time for both observations and feedback conferences.
- Provide useful, encouraging feedback to the student teacher.

#### Orientation and Organization

- · Orient your student teacher to your preferred method of contact.
- Visit the school to meet the mentor and administrators.
- · Contact the student teacher if you are unable to keep an appointment.
- Organize a collection of all the student teacher's work, including the CEES.
- At the end of the student-teaching semester, turn in all documentation and forms to the Coordinator of the field training BED Programs.

#### Preparation:

- Meet the mentor before the start of the field training .
- Prepare a file of all forms and requirements that the student-teacher will need during the semester.
- Be aware of timetables for university forms due dates as well as assignment deadlines.
- Be familiar with the content of the Field Training Handbook.

#### Teaching:

- Participate in mentoring the student-teacher at the beginning of the semester. These directives
  and instructions stress the responsibilities (academic, moral, ethical, and legal) and the
  information needed for a smooth transition from a university student to a successful teacher.
- Participate in directing mentors to provide information related to the program and required responsibilities, and to communicate effectively with the student teacher and university supervisor.
- Share information with student teachers about professional development opportunities in the local community.

#### Research/Scholarship

 Observe, assess, and evaluate student teachers on systematically grading teaching, planning, management, and professionalism.

- Guide the student teacher's progress in reflective thinking and self-evaluation.
- Evaluate the student teacher's lesson plans and provide written feedback.
- Document thoroughly any infractions of school policy or professionalism, as well as unsatisfactory progress in classroom instruction and management.
- Plan an intervention if there are problematic areas that need special attention. A copy of any
  plans resulting from the intervention shall be submitted to the program coordinator as soon as
  all parties have signed the plan.
- Participate in a three-way evaluation conference (at least 20 minutes) with the student teacher and mentor at the mid-point and end of the semester.
- Complete mid-point and final assessments with the mentor of each student teacher and write recommendations and/or summaries.
- Evaluate the completed e-file.

#### Leadership

- Continue professional development by reading professional journals and attending conferences.
- Be an assistant to the new field training supervisor if requested.
- Communicate regularly with the Program Coordinator on areas of interest or suggest program changes.
- Work as a link between the student teacher and the College of Education at Qatar University
   (this includes communication with the school principals, mentor teachers, the student teacher
   and the field training coordinator).
- Assist in placing the student teacher on the next semester's schedule by making suggestions or recommendations.
- Complete letters of recommendation (recommendation) for student teachers who are applying for initial teaching positions.

## **Appendices**

During the semester.....

## A Cicularation about Regular attendnce of BA. Students in the Field Training Course of the Primary and Secondry Education,

30
Student Name: Registration Number: Signature:

المتبعة لدمج الطلبة أو أي دعم إضافي يقدم البجابية نحو ....، أو تنمية قيم .... Identify the objective(s) you will address in the affective domain such as building positive attitudes towards ...., developing values .....

للطلبة من ذوى الاحتياجات الخاصة In case there is/are student/s with special needs, explain the facilities and procedures for the integration of those students or any additional support offered for students with special needs.

أو تعديـل الـدرس للطلاب ذوى الاحتيـاجـات | يفعله الطالب لتطبيق المفاهيم والمهارات العملية التي المختلفة، أو ماذا ستفعل للطلاب الذين يواجهون | تعلمها مع أوضاع جديدة. ويمكن استخدام هذه الأنشطة للطلاب الذين انهوا العمل وعلى استعداد للمضى قدماً، لا يتم تدريس أي معلومات جديدة هنا ـ الطلبة يقومون فقط بتطبيق ما تعلموه في الدرس ضمن سياق

Suggest ways to extend the activity for students. Indicate what students could do to apply the concepts and process skills learned to new situations. This can be used as extended activities for students who صعوبة في فهم المفاهيم والمهارات التي تدرس في الدرس أو بحاجة إلى دعم إضافي.

Suggest what you will do to differentiate or modify the lesson for students with diverse needs. What will you do for students who are having difficulty understanding concepts or skills taught in the lesson or need additional support?

complete work and are ready to move on.			
No new information is taught here—			
students are applying what they have			
learned in the lesson to a new context.			
التأمل الذاتي للمعلم			
Teacher self-reflection			
يتم بعد الإنتهاء من تدريس الدرس التفكير في التدريس الخاص بك، قد تفكر في معالجة الأسئلة التالية:			
1- ما الأمور التي سارت على ما يرام في الدرس، ولماذا تعتقد أنها سارت على ما يرام؟			
ـ ما يمكنك القايم به لتحسين الدرس في المرة القادمة؟			
ـ كيف تم تقييم تعلم الطلبة؟			
After the lesson has been taught reflecting on your teaching, you may consider addressing the following questions:  1- What went well in the lesson, and why do you think it went well?  2- What can you do to improve the lesson next time?  3- How was student learning assessed?			
المعايير المهنية للمعلمين			
Teachers Professional standards			
□1. التخطيط لتطوير أداء وتحصيل الطلبة.			
□ 2. إشراك الطلبة في عملية التعلم و تطوير هم كمتعلمين.			
□ 3. توفير بيئة تعلم آمنة وداعمة ومثيرة للتحدي.			
□ 4. تقييم تعلم الطلبة واستخدام بيانات التقييم لتحسين الأداء.			
🗖 5.إظهار ممارسات مهنية عالية الجودة والمشاركة في التطوير المهني المستمر.			
□ 6.الحفاظ على الشراكة الفاعلة مع أولياء الأمور والمجتمع.			
1. Planning for the development of students' performance and achievement.			

## 

- 2. Involving students in the learning process and developing them as learners.
- 3. Provide a safe, supportive and challenging learning environment.
- 4. Assess student learning and use assessment data to improve performance.
- 5. Demonstrate high quality professional practices and participate in continuing professional development.
- 6. Maintaining effective partnership with parents and the community.

# Guidelines and forms related to the student teacher's observation of other teachers (Used when observing other classes)

#### Task 1: Observing Classroom Management

Several factors should be noted during these observations: What is the general atmosphere of the classroom itself? What kind and how many interpersonal actions take place?

#### a/ General classroom environment

- How does the classroom feel inviting or unfriendly?
- How are samples of student work displayed throughout the classroom?
- How are artifacts of the subject area displayed? (e.g., Does it look as if Arabic is taught and learned in the classroom?)
- b/ What kind and how many interactions occur in the classroom? How can interactions be more effective in supporting student learning and understanding?
- Teacher-to-student: How much talking is done by only the teacher during the lesson? Is the talking filled with questions or factual information?
- Student-to-teacher: How much of an opportunity do the students have to ask questions of the teacher, or are the students merely providing simple answers to closed-ended questions?
- Student-to-student: How much and what kinds of opportunities do students have to work collaboratively or to talk to each other about the topic?

**Application:** Select at least one management technique that you will implement and report on your progress during Seminar.

Time	Management Technique or Skill	Comment
Environment		
	General impression of the classroom	
	Display of students' work	

Interactions		
	Teacher-to-student	
	Student-to-teacher	
	Student-to-student	

#### (a) Task 2: Observing Instructional Strategies

in the lesson.

a/ Lesson structure

- Does the lesson plan include a variety of ways to involve students in active learning?
- Is teacher following the lesson plan?
- Does the lesson include specific strategies for student's diverse needs?

#### b/ Student engagement

- How are students actively participating in the lesson?
- How are students working together?
- How frequently does the teacher ask open-ended questions?

**Application:** Select at least one instructional strategy that you will implement and report on your progress during Seminar.

Time	Instructional Strategies	Comment
Lesson structu	re	
	Active learning	

	Alignment to lesson plan	
	Differentiation	
Student engag	gement	
	Student participation	
	Student collaboration	
	Open-ended questioning	

#### **Task 3: Observing Assessment Practices**

Both formative and summative assessments should be observed and applied for the third task.

a/ Examples of uses for formative assessments

- To determine the level of a student's understanding, and then adjust the instruction to meet the student's needs.
- For the teacher's self-assessment in presenting the lesson Am I presenting the information in a way that students are following?

b/ Examples of types of formative assessments

- Open-ended questions
- Graphic organizers
- Activity or lab worksheets
- Exit cards

c/ Examples of uses of summative assessments

- Students' grades
- Student motivation

#### • School reports

Time	Assessment Practices		Commen	t		
Formative asse	essment					
	For student understanding					
	For teacher self-assessment

#### نموذج ملاحظة الدرس

#### **Lesson Observation Form**

: (اسم الطالب المعلم) :	
Grade: (الصف)	Subject: (الموضوع)
Observer's Name: (اسم الملاحظ)	_ Date/Time (الوقت /التاريخ )
عاون): Mentor (دور الملاحظ): Dbserver's Role	(المشرف الجامعي) College Supervisor (معلم م

This observation form is to be used by the mentor for daily lessons and observations. It may also be used by the college supervisor for visits to the intern's classes. All the criteria are applicable to diploma students and to students in the Special Education program in both classroom and resource room settings.

هذا النموذج مخصص الاستخدام المعلم المعاون لملاحظة الدروس اليومية. كما يمكن استخدامه أيضا من قبل المشرف الجامعي أثناء الزيارات الصفية للمتدرب. جميع المعابير تنطبق على طلاب الدبلوم والطلبة في برنامج التربية الخاصة في كل من غرفة الصَّف وغرفة المصادر.

Please check the most appropriate box (الرجاء وضع إشارة في المكان المناسب):

#### تقييم الأداء في التدريب الميداني- لغة عربية، دراسات إسلامية

Clinical Experience Evaluation Survey (CEES)

Bachelor and Diploma in Secondary Education Majors of: <u>Arabic Language</u>, <u>Islamic Studies</u>

- \* = Response is required
- اسم الطالب المتدرب Student Name \*
- رقم قيد الطالب Student QUID \*
- \* Evaluator المُقيّم
- Self Assessment تقییم ذاتی
- Mentor Teacher المعلون
- مشرف الكلية College Supervisor
- \* Evaluator Name اسم المقيم
- \* Subject المادة

#### هام جداً Important

Please note that successful completion of the clinical experience requires that a candidate score at satisfactory level ((3.0) or above on at least 7 of the 8 unit learning outcomes. If by mid-term a candidate is not at this level, a remediation plan must be filed.

يرجى ملاحظة أن الانتهاء من التدريب الميداني بنجاح يتطلب أن يحقق الطالب المتدرب درجة مقبولة ( 3.0 فأكثر) في 7 على الأقل من 8 لمخرجات تعلم الكلية. وإذا حقق الطالب مستوى أقل من ذلك في التقييم النصفي؛ فيجب أن يكون هناك خطة علاجية قد تم صياغتها وتنفيذها، وترفق مع هذا النموذج .

#### تعلیمات Instructions

Please mark the number that matches your observation for that item. Add the points together for a total score. A conversion tool is available to calculate percentages from the raw يرجى وضع علامة على الرقم الذي يطابق ملاحظاتك حسب كل عبارة، ثم اجمع نقاط التقييم مع بعضها للحصول على الدرجة الكلية. وتتوفر طريقة لتحويل الدرجة الخام الى نسبة منوية

#### (الأداء الصنفي) Part I: Classroom Performance

#### أ. التخطيط للدرس والمواد التعليمية A. LESSON PLANNING AND MATERIALS

\* 1. Innovative and flexible learning experiences are structured for individuals and group of students. (Evaluate on written lesson plan.)

يصمم خبرات تعليمية مبتكرة ومرنة للأفراد ولمجموعة من الطلبة. (قيم بناءً على خطة الدرس المكتوبة)

#### Response Legend:

targetمستهدف = 4 satisfactory عبر مقبول = 1 needs improvement بير مقبول = 1 عبر مقبول = 1

1 2 3 4 N/A

1.1 Identifies learning goals in Curriculum Standards and school-based curricula or IEP. يحدد الأهداف التعليمية لمعايير المنهاج والمقررات التعليمية المرتبطة بالمدرسة أو ببرنامج التعليم الفردي			
1.2 Designs learning experiences suitable to students' developmental level. تطور الطالب يصمم خبرات تعليمية مناسبة لمستوى.			
1.3 Plans and incorporates accommodations and modifications for special needs students. يضع الخطط اللازمة مع التعديلات التي تلائم الطلبة من ذوى الاحتياجات الخاصة الخاصة.			
1.4 Designs learning and teaching strategies that are innovative and flexible يقوم بتصميم طرق تعلم وتعليم مبتكرة ومرنة			
1.5 Integrates teaching materials and resources in lesson development يدمج أدوات التدريس والمصادر في عملية تطوير الدرس			
1.6 Designs lessons based on previous student learning by monitoring, assessing, and students' feedback يصمم دروساً بناءً على التَّعلم السّابق للطالب عن طريق المتابعة والتقييم والتغذية الراجعة من الطالب			

الدليل Evidence

#### P. TEACHING AND CLASSROOM MANAGEMENT ب. التدريس وإدارة الفصل

\* 2. Teaching strategies and resources to engage students in effective learning are used. .

يستخدم الاستراتيجيات التعليمية والمصادر لإشراك الطلبة في عملية التعلم الفعالة

	1	2	3	4	N/A
2.1 Identifies and states curriculum standard(s) that relate to the objectives at the beginning of the lesson يبين معياراً من معايير المنهاج المرتبطة بالمرتبطة بالأهداف في بداية الدرس					
2.2Uses teaching strategies appropriate for curriculum standards. يستخدم طرق التدريس الملائمة لمعايير المنهج					
2.3 Engages students by using a range of materials and resources يشرك الطلبة باستخدام مجموعة من الأدوات والمصادر					
2.4Uses a variety of skills and resources to adapt lessons يستخدم أشكالا متنوعة من المهارات والمصادر لتعديل الدروس					
2.50rganizes individual and group learning strategies during the lesson ينظم طرق التعلّم الفردية والجماعية أثثاء الدرس					
2.6 Employs print, multimedia, and electronic resources during the lesson يدمج مواد مطبوعة ومصادر إلكترونية متعدد أثناء إلقاء الدرس					
2.7. Uses questioning effectively to support student learning يستخدم طريقة التساؤل بشكل فعال لدعم تعلم الطالب					

#### الدليل Evidence

#### ج. بيئة التعلّم C. LEARNING ENVIRONMENT

\* 3. A safe, supportive and challenging learning environment is created توفير بيئة تعلم آمنة وداعمة ومليئة بالتحديات بالتحديات

Response Legend:

target مقبول = 1 aneeds improvement عبر مقبول = 1 unsatisfactory عبر مقبول = 1 نحسين = 2 unsatisfactory غير مقبول = 1

	1	2	3	4	N/A
3.1 Provides an environment that develops students' positive attitudes and learning opportunities. يوفر بيئة تُطَوّر وتنمي اتجاهات إيجابية لدى الطلبة .					
3.2 Conducts open, inclusive, equitable, and ethical interactions and communication with students. يقوم بإدارة ودمج التفاعلات والتواصل المفتوح والصريح والمساوي والأخلاقي مع الطلبة					
3.3 Selects topics and issues that foster students' critical thinking skills. يختار موضوعات وقضايا تعزز مهارات التفكير الناقد لدى الطلبة.					
3.4 Provides an environment that helps students to interact and work collaboratively. يوفر بيئة تساعد الطلبة على التفاعل والعمل بطريقة تعاونية.					
3.5 Provides reinforcement for appropriate behavior. يقدِّم تعزيزاً وتشجيعاً للسلوك اللائق.					
3.6 Provides feedback for inappropriate behavior. يقدم تغذية راجعة للسلوك غير اللائق.					

#### الدليل Evidence

#### د. الترابط والتوسع في الخبرات D. RELEVANCE AND EXTENSIONS

\* 4.Learning experiences that connect with the world beyond school are constructed. بناء الخبرات التعليمية التي ترتبط بالعالم خارج حدود المدرسة

Response Legend:

targetمستهدف = 4 satisfactoryمقبول = needs improvement 3-يعتاج إلى تحسين = unsatisfactory 4 غير مقبول = 1

	1	2	3	4	N/A
4.1 Incorporates students' interests and prior knowledge by linking to meaningful examples. يدمج اهتمامات الطلبة وتعلمهم السابق وذلك بربطها بأمثلة ذات معنى.					
4.2 Connects across subject areas on topics, problems, and issues relevant to local, national, and global communities يربط مجالات الدراسة بالموضوعات والمشكلات والقضايا المتعلقة بالبيئة المحلية والبيئة العالمية					
4.3 Designs lessons that are technology-rich to take students beyond the school environment to investigate problems and propose possible solutions. يصمم دروساً ثرية تكنولوجياً تلفت انتباه الطلبة وتتجاوز بهم حدود بيئة المدرسة لتقصي المشكلات واقتراح حلول ممكنة					

- 4.4 Introduces students to work and leisure opportunities as يقدّم للطلاب فرصا للعمل و فرصا للتر فيه حسب ما يناسب appropriate. 4.5 Supports students in taking intellectual risks, testing ideas, and يدعم الطلبة في التحديات الفكرية وتحليل الأفكار والاستفادة من المبادرة التي تدعم .using initiative تفكير الطالب الدليل Evidence هـ. تكنولوجيا المعلومات و الاتصالات E. INFORMATION AND COMMUNICATION TECHNOLOGY \* 5. Information and communication technology is applied and integrated in managing student يطبق ويدمج تكنولوجيا المعلومات والاتصالات في توجيه تعلم الطلبة بدمجها في .learning and is integrated into student work عملهم Response Legend: target،مشنهدف = 4 satisfactoryمقبول = 1 needs improvement، بلى تحسين = 2 unsatisfactory عير مقبول = 1 1 2 3 4 N/A 5.1 Identifies students' learning needs in relation to ICT يحدد احتياجات الطلبة التعليمية فيما يتعلق بتكنولوجيا المعلومات والاتصالات يختار طرقاً ووسائل S.2 Selects ICT-based learning strategies and resources تعليمية قائمة على تكنولوجيا المعلومات والاتصالات 5.3 Involves students in using ICT to organize and search يشرك الطلبة في استخدام تكنولو جيا المعلومات و الاتصالات لتنظيم البيانات و البحث عنها .information قيم طرق . 5.4 Evaluates ICT-based learning strategies and resources التعلم والمصادر التعليمية القائمة على تكنولوجيا المعلومات والاتصالات 5.5 Accesses and manages information on student learning using ICT يو ظف ويدير المعلومات في عملية تعلّم الطالب مستخدماً موار د تكنولوجيا المعلومات . resources والاتصالات الدليل Evidence و. التقييم F. ASSESSMENT
- \* 6. Student learning is assessed and reported تقييم تعلم الطالب ووضعه في صورة تقارير Response Legend:
- target عبر مقبول = 1 satisfactory عبر مقبول = 1 unsatisfactory عبر مقبول = 1 unsatisfactory عبر مقبول = 1 عبر مقب
- 6.1 Monitors students closely during the lessons. يراقب الطلبة عن قرب أثناء إلقاء الدروس .الدروس
- 6.2 Plans valid and reliable assessments, aligned to objectives يضع وتتماشى مع الأهداف تقييمات تمتاز بالصدق والثبات

3

4 N/A

6.3 Assesses and reports students' learning using multiple methods of assessment. يقَيِّم ويقدم تقريراً عن تعلم الطلبة باستخدام عدة أساليب تقبيمية.					
6.4 Provides clear, accurate, and concise feedback to students on the outcomes of assessment. يقدم تغذية راجعة واضحة ودقيقة وموجزة للطلاب حول مخرجات التقييم					
6.5 Reviews assessments for continued appropriateness. يراجع التقييمات لضمان استمراريةِ مناسبتها.

### تقييم الأداء في التدريب الميداني علوم

Clinical Experience Evaluation Survey (CEES)

Bachelor and Diploma in Secondary Education Majors of: <u>Science</u>

*	Student	teacher's	Name	الطالب المعلم)	(است

- \* Evaluator المُقيّم:
- تقییم ذاتی Self Assessment
- Mentor Teacher المعلم المعاون
- مشرف الكلية College Supervisor
- \* Evaluator Name (اسم المقيم)
- \* Subject المادة
- \* Grade الصف

#### هام جداً Important

Please note that successful completion of the clinical experience requires that a candidate score at satisfactory level ((3.0) or above on at least 7 of the 8 unit learning outcomes. If by mid-term a candidate is not at this level, a remediation plan must be filed.

يرجى ملاحظة أن الانتهاء من التدريب الميداني بنجاح يتطلب أن يحقق الطالب المعلم درجة مقبولة ( 3.0 فأكثر) في 7 على الأقل من 8 لمخرجات تعلم الكلية. وإذا حقق الطالب مستوى . . أقل من ذلك في التقييم النصفي؛ فيجب أن يكون هناك خطة علاجية قد تم صياغتها وتنفيذها، وترفق مع هذا النموذج

#### تعلیمات Instructions

Please mark the number that matches your observation for that item. Add the points together for a total score. A conversion tool is available to calculate percentages from the raw يرجى وضع علامة على الرقم الذي يطابق ملاحظاتك حسب كل عبارة، ثم اجمع نقاط التقييم مع بعضها للحصول على الدرجة الكلية. وتتوفر طريقة لتحويل الدرجة الخام الى نسبة منوية

## **Parent Conference Report - Rubric**

	(Grade 1) Yes	(Grade 0) No	Comments
Firstly: This report mentions the following:			
1. The subject of the meeting.			
2. Student's behavior at home.			
<ol> <li>Parents' expectations towards the student's responsibilities at school.</li> </ol>			
Secondly: The report indicates if the student teacher:			
Reflects on the strengths and the weaknesses in the student's behavior			
<ol> <li>Shows sound understanding of the student's performance and uses that in order to understand the student's problem/challenge.</li> </ol>			
Ensures that parents understand the teacher's roles and the school's policy.			
<ol> <li>Identifies student's performance, progress, and challenges that need to be addressed and gives examples of those</li> </ol>			
Thirdly: Student teacher suggestions:			
Recommends activities for parents to support their children at home			
Offers suggestions to support positive classroom behaviors			
Cooperation between the student teacher and parents to support student's performance			
Total			
Overall grade: Divide the total by 2 ,so the overall grade is out of 5			

#### Weekly Reflection Journal Guidelines

The Reflective Journal is a place for observations, reflections, and questions. It should be accessible to your college supervisor for comments on your observations to answer your questions. Your supervisor can also help you learn to examine your experiences more deeply, by offering another perspective on certain situations. While comments about every topic, every week are not necessary, you should be sure to address them consistently throughout the semester. The weekly journal should include comments about the following:

#### 1. Personal thoughts, feelings, and insights about events and the educational environment Examples:

- a) How did you feel as you begin your student teaching?
- b) Are you anxious even though you already have some experience teaching?
- c) Were you especially satisfy or disappointed in a particular even that happened this week?

#### 2. A consistent, in-depth view of experiences extending throughout the semester Examples:

- a) What do you see as a target of your plan for improvement?
- b) What specific actions do you want to take or have you taken this week?
- c) Were there any situations with students that happened unexpectedly? How were you involved? What do you think about the situation?

#### 3. A range of experiences and perspectives on numerous aspects of teaching and learning Examples:

- a) Is it, or has it been, more difficult than you imagined it would be to change the habits you had before you started the BED Program?
- b) What evidence of professionalism do you see in your own behavior and the behavior of your colleagues?

# 4. Numerous examples of confidentiality, ethics, and respect for teaching as a profession, including why these traits are necessary for a high level of professionalism Examples:

- a) Did a student or colleague tell you something in confidence? How should you deal with that information?
- b) What is an example of your support for teaching as a profession?

# 5. Recognition and demonstration of the need for personal growth in skill, understanding, and professionalism. Examples:

- a) Did you participate in any professional development sessions this week? What was it about?
- b) Is there a topic in PD that you would like to learn more about? What is it?
- c) Do your needs in PD change as you gain more experience as a teacher? Why do you think so?

## General guidelines for writing the mid-term and final-term reflection journal

Name:	Date:
Reflection Note	es: Please use the following questions to guide your reflection:
a. Mid-term as	ssessment:
1. What was th	e biggest challenge you faced during the first half of teaching students? Explain that.
2. Mention a p	ositive event or a situation that you did not expect to happen during the first half of teaching
students. Expla	in that
3. List two area	s you want to improve during the second half of teaching students.
a) First:	
b) Second	<u>l:</u>
4. Indicate one	way you would like the mentor to help you, in which the mentor did not provide assistance
before, or you v	would like the teacher to continue providing this assistance to you. Explain.
5. Indicate one	way in which you would like the supervisor to help you, in which the supervisor did not provide
assistance befo	re, or you would like the supervisor to continue providing this assistance to you. Explain that.
b. For the fina	l assessment:
1. What was th	e biggest challenge you faced while teaching your students? Explain that.
2. In your opini	on, what aspect of teaching the student was the most successful? Explain that.
3. How the exp	erience of field training has changed your directions and skills in the following areas:
a)	Learning support for all students.
b)	Teaching.
c)	Research.
d)	Leadership.

#### Technology for Learning Project Guidelines (Technology Lesson)

#### TaskStream Assignment

#### Overview:

Technology provides a variety of tools to enhance teaching skills and clarify concepts. They are also valuable to students in the learning process. These two components are assessed during the student teaching semester in an observed lesson.

To fulfill the three requirements of the standard you must satisfactorily complete the following:

- Demonstrate the appropriate use of technology in teaching.
- Demonstrate that students use appropriate technology for learning.
- Demonstrate an awareness of appropriate technologies to enhance learning by students with exceptionalities.

#### Assignment

For one of your observed lessons, integrate a technology that is appropriate to the content, and includes interactivity for the students.

**Examples** of an appropriate use of interactive technology to **enhance teaching**:

<u>Language lesson</u>: Using an interactive whiteboard in an Arabic language or English class, have young students write the name of the item in each of the displayed pictures.

<u>Social Studies</u>: Using a printed transparency map of Qatar on an overhead projector, have students locate Doha and other cities and towns within the borders. Then have students draw the roads between them on each of their own maps.

<u>Math</u>: Using calculators and an interactive grid on a whiteboard, calculate which of two shapes needs a longer fence.

<u>Physics</u>: Using motion detectors and a graphing program, determine which motions create or replicate various graphs.

#### NOTE: A simple slide show during a lecture is not considered adequate for this task.

For one of your observed lessons, integrate a technology that enhances student learning and is appropriate to both the content and the student level.

**Examples** of an appropriate use of interactive technology **to enhance learning**:

<u>Social Studies</u>: Students create a PowerPoint slide show with embedded audio and video to show architectural differences between old and new Doha and show the cultural influence over history.

<u>Language</u>: Students create recordings of their pronunciation of various words, phrases, and sounds and analyze them in order to speak more clearly.

Chemistry: Students use a modeling program to create virtual molecules and to balance chemical equations.

#### NOTE: Teaching students how to create slides does not fulfill the requirements for this task.

In your lesson plan, describe several (3-5) specific technologies that would enable a student with an exceptionality to enhance his/her learning.

**Examples** of appropriate technologies to enhance the learning of a student with exceptionalities:

- Students with vision difficulties use alternative color schemes for viewing large-print text on a monitor.
- A student with difficulty using a keyboard uses a dictation application to record class notes.

#### **Unit Plan Guidelines**

#### TaskStream Assignment

#### Purpose:

A Unit Plan, made up of complete lesson plans and supporting materials, should target a concept—not a topic—in the curriculum. The goal of the unit is to develop rich, rigorous, engaging learning situations for students based on the targeted concept. It should include extensive use of technology for learning, multiple opportunities for active engagement by students, and carefully differentiated instruction and assessment to enable diverse learners to succeed.

#### **Specifics**

- 1. The unit should be a set of sequenced lessons all related to different topics within the concept.
- 2. The unit's objectives should align with the prescribed curriculum of the school and subject area.
- 3. The unit should take four (4) to six (6) blocks of class time to teach.
- 4. Rubrics for lesson plans **and** the unit will be used to evaluate your work.
- 5. Be sure to use them for additional information about how to complete your unit.
- 6. The rubrics can be found in the *Appendix*.

## Teaching Unit Rubric (English)

## السلم التقييمي للوحدة الدراسية (لغة انجليزية)

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target	Score/Level
Language and Literacy Objectives (Language as a System) TESOL 1.a.	Few to no lessons have objectives that are supportive of ELLs in acquiring English language, literacy, or the target content.	Overall, lessons support ELLs as they acquire English language and literacy and the target content, although one or more lessons do not have objectives that would support ELLs.	Objectives in all lessons support ELLs as they acquire English language and literacy and the target content.	Specific objectives are identified in in each lesson in phonology, morphology, syntax, pragmatics or semantics as appropriate to support ELLs as they acquire English language and literacy and the target content.	
Cultural values and beliefs in the context of teaching and learning. TESOL 2	Little to no recognition of the students' cultural values or beliefs in instructional plans.	Demonstrates awareness of the importance of students' cultural values in instruction.	Include activities that incorporates students' cultural values and beliefs, but not consistently.	Consistently design instruction that incorporates students' cultural values and beliefs in instructional plans.	
Planning for Standards- Based ESL and Content Instruction TESOL 3.a.	Many content errors and shows little understanding of the major ideas of the discipline. All content represents a single content area.	Some content knowledge errors; some understanding of the major ideas of the discipline. All content represents a single content area.	Most content knowledge is accurate presented and reflects the important ideas of the discipline. Unit includes content from several disciplines.	All content knowledge is accurate and clearly presented; knowledge reflects the major ideas of the discipline.	
Planning for Standards- Based ESL and Content Instruction- TESOL 3.a.	Employs no variety of instructional strategies and assignments. Instruction is teacher-centered	Employs little variety of instructional strategies and assignments. Most activities are teacher-	Employs some variety of instructional strategies and assignments to meet stated objectives. Uses	Employ a variety of instructional strategies and assignments to meet stated objectives and the needs of

	and provides no opportunity for cooperative learning.	centered. Little opportunity for cooperative learning.	activities that are student-centered, and employ cooperative learning, but not consistently.	ESL learners. Consistently plans activities that are student-centered, and employ cooperative learning and other active learning strategies.	
Implementing and Managing Standards-Based ESL and Content Instruction TESOL 3.b.	Little to no inclusion of techniques for developing and integrating English listening, speaking, reading, and writing.	Few lessons include techniques for developing and integrating English listening, speaking, reading, or writing.	Most lessons include standards-based teaching strategies and techniques for developing and integrating English listening, speaking, reading, and writing.	Unit includes a variety of standards-based teaching strategies and techniques for developing and integrating English listening, speaking, reading, and writing.	
Using Resources and Technology Effectively in ESL and Content Instruction TESOL 3.c.	Shows little awareness of appropriate materials, resources, or technologies to support effective ESL and content teaching.	Shows awareness of materials, resources, and technologies that support effective ESL and content teaching, but does not chose or adapt them appropriately.	Chooses materials, resources, and technologies appropriately to support effective ESL and content teaching.	Uses a wide range of standards-based materials, resources, and technologies to support effective ESL and content teaching.	
Classroom- Based Assessment for ESL TESOL 4.c.	Lessons do not contain an assessment, or assessments are not appropriate for ELLs.	Although most lessons include a formative or summative assessment, they are not consistently appropriate for ELLs.	Uses performance-based assessment tools and techniques appropriate for ELLs for formative and summative assessment to inform instruction.	Uses a variety of performance-based assessment tools and techniques for formative and summative assessment and to inform instruction.  Modifies assessments and includes alternative assessment measures

Objectives NCTM 3a	Few objectives are aligned with Qatar National Curriculum Standards in the discipline and international discipline standards. Few are listed or written clearly in measurable terms, or few are appropriate for each lesson and for students.	Some objectives are aligned with Qatar National Curriculum Standards in the discipline and the international discipline standards. Some are listed, written clearly in measurable terms, and appropriate for each lesson and for students.	Most objectives are aligned with Qatar National Curriculum Standards in the discipline and international discipline standards. Most are listed, written clearly in measurable terms, and appropriate for each lesson and for students.	All objectives are aligned with Qatar National Curriculum Standards in the discipline and international discipline standards. All are listed, written clearly in measurable terms, and appropriate for each lesson and for students.
Content NCTM 1a	Many content errors and shows little understanding of the major ideas of the discipline. All content represents a single content area. No effort to connect content to everyday life or the workplace.	Some content knowledge errors; some understanding of the major ideas of the discipline. All content represents a single content area. Limited opportunities to connect content to everyday life or the workplace.	Most content knowledge is accurate presented and reflects the important ideas of the discipline. Provides students with opportunities to make connections among at least two of the following: multiple content areas, everyday life, and the workplace.	All content knowledge is accurate and clearly presented; knowledge reflects the major ideas of the discipline.
Support for Discipline- specific Literacy NCTM 2d	Limited use of reading and writing. Does not require students to employ discipline-specific language.	Includes reading reading/writing tasks that require students to use discipline specific language either orally or in writing.	Includes reading reading/writing tasks that support both the content area and literacy. Requires some use of discipline-specific language to express ideas either orally or in writing.	Includes reading from multiple sources and multiple reading/writing tasks that clearly support both the content area and literacy. Requires students to use discipline-specific language to express ideas precisely, both orally and in writing

	Undemonstrated or Unsatisfactory 1	Needs Improvement 2	Satisfactory 3	Target 4
				to multiple audiences.
Connections NCTM 3d	Provides few to no opportunities to communicate or make connections among the content areas, everyday life, and the workplace.	Provides students with limited opportunities to communicate make connections among the content areas, everyday life, and the workplace.	Provides students with several opportunities to communicate make connections among the content areas, everyday life, and the workplace.	Provides students with multiple, creative opportunities to communicate make connections among the content areas, everyday life, and the workplace.
Technology NCTM 5b	Available technology is not used or is used inappropriately. Technology used is not discipline specific.	Available technology is used but does little to support the objectives and to engage learners. Little discipline-specific technology is used and little use of technology to build new knowledge.	Available technology is used appropriately, somewhat supports the objectives, and engages learners. Students are engaged in developmentally appropriate discipline-specific activities and investigations; limited requirement for building new knowledge.	Available technology is used appropriately, supports the objectives, and engages learners. Students are engaged in developmentally appropriate discipline-specific activities and investigations that require active engagement and discipline-specific technology in building new knowledge.
Instructional Strategies and Assignments NCTM 3e	Employs no variety of instructional strategies and assignments. Instruction is teachercentered; almost no opportunity for active learning or creative thought.	Employs little variety of instructional strategies and assignments. Most activities are teacher centered. Little opportunity for creative thought.	Employs some variety of instructional strategies and assignments to meet stated objectives. Most activities are student-centered and active learning and higher-level thinking are encouraged in some activities, but not consistently.	Employs a variety of instructional strategies and assignments to meet stated objectives. All learning activities are student-centered, and most employ active learning. Many activities require higher level thinking skills and provide opportunities for creativity.

	Undemonstrated or Unsatisfactory 1	Needs Improvement 2	Satisfactory 3	Target 4
Differentiation of Instruction  NCTM 4c	Differentiation is not used.	Limited evidence of knowledge of individual differences and diversity. Differentiation is used across few lessons to meet the needs of students.	Incorporates knowledge of individual differences and cultural and language diversity to motivate and engage most students. Differentiation is used across some, but not all, lessons to meet the needs of students.	Incorporates knowledge of individual differences and cultural and language diversity to motivate and engage the range of students within the classroom. Differentiation is addressed in all lessons.
Assessment NCTM 3f	Lessons do not contain an assessment or assessments are not aligned with the objectives. Limited opportunity to interpret student progress.	Few lessons contain an assessment that is aligned with objective(s), or lessons include an assessment that is not aligned with the objectives. A narrow range of assessments (formative or summative) is included. Limited opportunity to interpret student progress.	Most lessons contain an assessment that is aligned with objectives. Unit as a whole provides formative and summative assessment to inform instruction.	All lessons contain at least assessments that are aligned with objectives. Unit as a whole provides information to interpret and use formative and summative assessment to inform instruction.
Organization Knowledge of Adolescent Development and Behavior NCTM 4a	Unit does not reflect knowledge about the development, learning, and motivation of children.	Limited reflection of knowledge about the development, learning, and motivation of children.	Some lessons reflect an understanding of the development, learning, and motivation of children, but not consistently demonstrated.	Set of lessons reflects an understanding of the development, learning, and motivation of children and how to develop a positive disposition toward learning.
Ethics NCTM 4d	There are ethical or inequality issues in the lesson plan or no evidence of high expectations for students.	No specific, active plans are included to demonstrate equitable and ethical treatment and high	Some lesson plans identify ethical issues associated with the lesson. Unit plan as a whole demonstrates equitable and ethical treatment of and	Each lesson plan clearly identifies ethical issues associated with the lesson and provides clear and practical instruction on how to

	Undemonstrated or Unsatisfactory 1	Needs Improvement 2	Satisfactory 3	Target 4
		expectations for all students.	high expectations for all students.	avoid problems. Unit plan demonstrate equitable and ethical treatment of and high expectations for all students
Spelling, grammar, punctuation	Errors in grammar, punctuation, or spelling require major editing and revising.	Errors in grammar, punctuation, or spelling require major editing and revising.	Errors in grammar, punctuation, or spelling require minor editing and revising.	Unit contains almost no errors in grammar, punctuation, or spelling.

Provides a lesson on safety, the topic lacks thoroughness. پقدم درسا عن السلامة، لكن لموضوع يفتقر الى الدقة	Provides a lesson on safety that includes at least two of the following: (1) Description on how to establish a safe and ethical learning environment, (2) Gives classroom safety rules, AND (3) Describes how to ensure the ethical and legal treatment of living organisms.  المعاملة الأخلاقية المناه وأخلاقية الصفية واعد السلامة المعاملة الأخلاقية ضمان المعاملة الأخلاقية ضمان المعاملة الأخلاقية	Provides a well-developed lesson on safety that includes all of the following:  (1) Description on how to establish a safe and ethical learning environment,  (2) Gives classroom safety rules, AND  (3) Describes how to ensure the ethical and legal treatment of living organisms.  المناه المناه المناه المناه وأخلاقية الصفية وأعد السلامة تعليمية الصفية واعد السلامة الأخلاقية المعاملة الأخلاقية المعاملة الأخلاقية
Engage students in developing concepts and relationships from data NSTA 5c Industrial in	Shows little to no awareness of the importance of requiring students to develop concepts and relationships from observations, data, and inferences in a scientific manner.	Shows an awareness of the importance of requiring students to develop concepts and relationships from observations, data, and inferences in a scientific manner, but gives no examples.  a judy	والقانونية للكائنات  Gives one example of providing developmentally appropriate inquiry activities that require students to develop concepts and relationships from observations, data, and inferences in a scientific manner.  پعطی مثالا واحدا علی مناسبة من حیث النطور والتی تنطلب من الطلبة من خلال الملاحظات من خلال الملاحظات والبیانات والاستنتاجات	Gives at least two examples of providing developmentally appropriate inquiry activities that require students to develop concepts and relationships from observations, data, and inferences in a scientific manner.  على تقديم أنشطة يعطى مثالين على الأقل على تقديم أنشطة مناسبة من الطلبة تطوير المفاهيم والعلاقات من خلال والعلاقات من خلال والاستنتاجات بطريقة علمية

Safety and Ethical Practice NSTA 4a الممارسات الآمنة والأخلاقية	Few or no lesson plans identify ethical or safety issues associated with the lesson and/or no instruction is provided on how to avoid problems. عناك القليل/ او لا تقطط دروس تقطرق خطط دروس تقطرق والممارسات الأخلاقية مرتبطة بالدرس. أو لا المشاكل	Most lesson plans clearly identify ethical or safety issues associated with the lesson; instructions on how to avoid problems may be limited or impractical.  معظم خطط الدروس تشكل واضح مسائل السلامة المسائل السلامة والاخلاقيات المرتبطة بالدرس، والتوجيهات لتفادي المشاكل محدودة وغير عملية.	Each lesson plan identifies ethical or safety issues associated with the lesson and provides instruction on how to avoid problems.  مبيع الخطط تتطرق المسائل السلامة والأخلاقيات المرتبطة بالدرس وتحتوي على توجيهات لتغادي المشاكل	Each lesson plan clearly identifies ethical or safety issues associated with the lesson and provides clear and practical instruction on how to avoid problems.  مبيع الخطط تتطرق بشكل واضح لمسائل السلامة والأخلاقيات المرتبطة بالدرس وتقدم توجيهات واضحة وعملية المشاكل
Spelling, grammar, punctuation التهجئة والقواعد والترقيم	Errors in grammar, punctuation, or spelling require major editing and revising.  الترقيم، أو الهجاء الترقيم، أو الهجاء نحرير ومراجعة كبيرين	Errors in grammar, punctuation, or spelling require major editing and revising الأخطاء في القواعد، الترقيم، أو الهجاء تتطلب تحرير ومراجعة كبيرين	Errors in grammar, punctuation, or spelling require minor editing and revising.  الأخطاء في القواعد، الترقيم، أو الهجاء نتطلب تحرير ومراجعة طفيفة	Unit contains almost no errors in grammar, punctuation, or spelling. لا تحتوي الوحدة على أي أخطاء في القواعد أو التدقيق الإملائي

#### **Assessment Practices Guidelines**

#### TaskStream Assignment

#### Overview

One way to measure the impact we have on student learning is with a pre-and post-test comparison. The difference between the two scores should be the result of our teaching. The information from this assessment analysis is used to design future lessons and to improve skills in the use of various instructional strategies. The main intention of this assignment is to collect and use assessment data to modify instruction and improve student learning. Adaptations may be necessary when applied to specific situations.

#### Adaptations

This analysis should be adapted for students of different grade levels, for different subjects, and for athe ssessment of students with various exceptionalities. For example, students in early grades do not have the same capacity for abstract thinking as secondary students; language subjects use different strategies for teaching and learning than other content areas such as math; and students who have specialized instruction often are working with the teaching in a small group or one-to-one.

#### Description

- 1. Select a set of 3-5 daily lessons on the same topic or concept.
- 2. Design a test that reflects what you think students should know, understand, and be able to do at the end of the set of lessons. It will be easier to analyze if the questions are either right or wrong. Later, you can analyze items that are worth more than one point.
- 3. Have your students take the test **before** you begin teaching and record their marks on a spreadsheet. Use "1" for an answer is correct, use "0" if the answer is wrong.
- 4. Record their marks for each item, as well as their total score. When you have completed the lessons, have the students take the same test, scoring and recording it in the same way as the pre-test.

When you have both sets of scores for each student on each item, the following questions will be helpful in the analysis and reflection.

#### **Data collection**

1. Calculate the mean, median, and mode for both pre-and post-test.

- Calculate the total for each of the items of both tests. This tells us which items had the most correct responses. (Frequency distribution)
- 3. Calculate the mean for each of the items. (Item analysis)
- 4. Determine which items addressed individual levels of Bloom's Taxonomy.

#### Analysis

- 1. Mean, median, and mode for both pre-and post-test
- a) How do they compare?
- b) What does this tell you about the results?
- 2. Items with the most correct responses or highest points:
- a) In the pre-test, what does this mean?
- b) In the post-test what does this mean?
- 3. The frequency of correct responses to an individual item
- a) Did it change or stay the same?
- b) Was the change positive or negative?
- 4. Items addressing individual levels of Bloom's Taxonomy
- a) What type of question appeared most often?
- b) How do these items compare to the frequency distribution you did for #2 in the data collection?

#### Display the Results

- 1. Use the chart function of the spreadsheet program to make a chart or figure of your data or arrange the data in a table.
- 2. Use the table or figure you created in reflecting on the results.

#### **Implications**

- 1. When comparing the mean, median, and mode of the pre- and post-tests, what might this indicate?
- 2. Did the group of items with the most correct responses get smaller, stay the same, or get bigger? What does this indicate?
- 3. When comparing the items from the pre-test to the same items on the post-test:
  - a) What does it mean if fewer students answered correctly after the instruction?
  - b) What does it mean if more students answered correctly after the instruction?
  - c) If there were items that showed no change in score from pre- to post-test, what might you conclude?

- 4. What are some implications of the analysis of the test items distributed on Bloom's taxonomy?
  - a) Which level of the taxonomy levels had the most questions?
  - b) Which level of questions had the most correct responses?

### **Extended analysis**

- 1. Use the spreadsheet array to do a content analysis.
  - a) Which items are related to the same content?
  - b) Which content items were aligned with which level of Bloom's taxonomy?
  - c) How many correct responses were associated to each of the items of the same or similar content?

#### Reflection

How helpful was it to display the results in a table, graph, or chart?

What did you learn about student learning from doing this activity?

How would you use this information in planning future lessons?

BSEC Math E-Folio Rubric

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target
Content – Knowledge of field of study NCTM 1a Add PLO 1	Many errors in content knowledge in in mathematics concepts, algorithms, procedures, application in varied contexts, and connections within and among mathematical domains OR not enough evidence in the area to make a valid judgment.	Adequate evidence of content knowledge in in mathematics concepts, algorithms, procedures, application in varied contexts, and connections within and among mathematical domains.	Sound evidence of content knowledge in mathematics concepts, algorithms, procedures, application in varied contexts, and connections within and among mathematical domains.	Clear and convincing evidence of accurate and thorough content knowledge in mathematics concepts, algorithms, procedures, application in varied contexts, and connections within and among mathematical domains.
Content - Pedagogy— Knowledge of of mathematical pedagogy  NCTM 4e  Add PLO 1	Many errors in pedagogical knowledge and skills in mathematics education OR not enough evidence in the area to make a valid judgment.	Adequate evidence that candidate uses instructional tools appropriate for mathematics	Evidence that candidate can select and use effective and appropriate instructional tools; including but not limited to concrete models, technology applications, and mathematics-specific technologies and software.	Clear and convincing evidence that candidate can select and use effective and appropriate instructional tools; including but not limited to concrete models, technology applications, and mathematics-specific technologies and software.
Content –  Knowledge of students  NCTM 4a  Add PLO 1	Little to no evidence that instruction is planned in accordance with current theories of man development, learning, and motivation.	Some evidence of instruction planned in accordance with current theories of man development, learning, and motivation.	Sound evidence that plans for instruction are consistent with current theories of man development, learning, and motivation.	Clear and convincing evidence that candidate understands human development, learning, and motivation and plans instruction accordingly
Pedagogy – Instructional planning	Plans for instruction lack several key Indicators.	At least 2 examples of lessons with learning opportunities	At least 3 examples of lessons with learning opportunities	At least 4 examples of lessons with appropriate,

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target
NCTM 4b  Add PLO 2		grounded in mathematics education research.	grounded in mathematics education research in which students are actively engaged in building new knowledge from prior knowledge and experiences.	sequential, and challenging learning opportunities grounded in mathematics education research in which students are actively engaged in building new knowledge from prior knowledge and experiences.
Pedagogy Designs and teaches active inquiry lessons  NCTM 5b  Add PLO 2	Lessons are not inquiry-based.	Provides at least 2 examples of active inquiry lessons where students are engaged in developmentally appropriate mathematical activities and investigations that require active engagement.	Provides at least 2 examples of active inquiry lessons where students are engaged in developmentally appropriate mathematical activities and investigations that require active engagement and include mathematics- specific technology in building new knowledge.	Provides at least 4 examples of active inquiry lessons where students are engaged in developmentally appropriate mathematical activities and investigations that require active engagement and include mathematics- specific technology in building new knowledge
Pedagogy – Educational environment NCTM 4d Add PLO 2	Little evidence of plans for creating or maintaining a positive educational environment or planning for ethical treatment of all students.	Includes evidence of equitable and ethical treatment or of high expectations for all students.	Includes evidence of equitable and ethical treatment of and high expectations for all students.	Includes all of the following: A student-centered philosophy of learning and evidence of equitable and ethical treatment of and high expectations for all students.
Pedagogy – Behavior management NCTM 4a Add PLO 2	Little evidence of a behavior management plan, or behavior management plan is not consistent with theories of child/human development	Provides a behavior management plan that rewards positive behavior	Provides a behavior management plan that is consistent with theories of child/human development and that rewards positive behaviors	Provides a clearly articulated behavior management plan that is clearly based on an understanding of child/human development and that rewards positive behaviors

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target
Pedagogy – Assessment NCTM 5c Add PLO 2	Few means of assessment are demonstrated or assessment results are not used to adjust teaching and learning	Provides evidence of at least one of the following: (1) diagnostic, (2) formative, or (2) summative assessments that determine the extent to which students' mathematical proficiencies.	Provides evidence of at least two of the following: (1) diagnostic, (2) formative, and (2) summative assessments that determine the extent to which students' mathematical proficiencies.	Provides evidence of well-planned diagnostic, formative, and summative assessments that determine the extent to which students' mathematical proficiencies.
Technology – Personal and professional use NCTM 4e Add PLO 3	Shows lack of basic competency in the use of technology	Demonstrates basic competency in using: Email communication Word processing	Demonstrates basic competency in using several of the following: Email communication Word processing Spreadsheets Internet search Library e-references accesses and manages information on student learning using ICT resources	Demonstrates proficiency in using standard technology tools, including most of the following: Email communication Word processing Spreadsheets Internet search Library e-references accesses and manages information on student learning using ICT resources
Technology – Instructional use of field- specific technologies NCTM 4e Add PLO 3	Little to no evidence of the use of technology to achieve learning objectives	Demonstrates: Incorporation of educational e- resources in instruction Use of multi-media to support learning objectives	Demonstrates several of the following: Locating and evaluating exemplary educational eresources Selecting and using multi-media to support learning objectives Planning instruction that includes student use of technology to achieve learning objectives Developing technology-based resources for instructional use (ex: webquests)	Demonstrates most of the following: Locating and evaluating exemplary educational e-resources Selecting and using multi-media to support learning objectives Planning instruction that includes student use of technology to achieve learning objectives Developing technology-based resources for instructional use (ex: webquests)

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target
Diversity – Differentiation NCTM 4c Add PLO 4	Little to no evidence that instruction is differentiated or that respect for a diverse student population is supported	Includes modifications for students with special needs in some instructional plans	Demonstrates most of the following: Instructional plans include accommodations or modifications for students with special needs Classroom policies support respect for all students, including those with diverse needs and backgrounds	Demonstrates most of the following: Instructional plans include appropriate accommodations and modifications for students with special needs Classroom policies require students to interact respectfully with others, including those with diverse needs and backgrounds Some materials provide helpful, appropriate information about community services to support students with personal and/or academic issues
Problem- solving  NCTM 5a  Add PLO 5	Little or no evidence for personal use of problem-solving or opportunities for students to use critical thinking to solve problems	Demonstrates more than one opportunity for students to use critical thinking to solve problems	Demonstrates some of the following: Selects strategies and resources that facilitate the development of students' critical thinking and independent problem solving skills Selects topics and issues that require critical thinking Personal use of critical thinking to solve problems in education	Demonstrates most of the following: Selects strategies and resources that facilitate the development of students' critical thinking and independent problem solving skills Selects topics and issues that require critical thinking Personal use of critical thinking to solve problems in education
Scholarly Inquiry – Uses research NCTM 6c	Little or no evidence for the use of scholarly inquiry in teaching and learning	Shows ability to read and understand academic research	Demonstrates at least two of the following: (1) Locates appropriate and useful academic information related to the field,	Demonstrates at least three of of the following: (1) Locates appropriate and useful academic information related

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target
			(2) Uses research from professional organizations related to the field. (3) Evaluates academic research, using appropriate criteria (4) Applies information from research to improve teaching and learning	to the field, (2) Uses research from professional organizations related to the field. (3) Evaluates academic research, using appropriate criteria (4) Applies information from research to improve teaching and learning
Scholarly Inquiry – Engages in research NCTM 6b	Little to no evidence of personal research in education	Designs research on a problem in education	Designs quality research on a problem in education that is (or can be) applied for positive change	Designs and conducts high quality research on a problem in education that is (or can be) applied for positive change
Ethical Values  NCTM 6b  Add PLO 8	Several instances in which opportunities to apply ethical values were ignored or better choices could have been made in several of the following areas: relationships students relationships with other stakeholders school policies intellectual property	A few omissions or mistakes in the application of ethical values in all of the following: relationships with students, including those with special needs or from diverse backgrounds relationships with supervisors and colleagues relationships with parents and community stakeholders activities related to school policies activities related intellectual property	Overall, sound choices in the application of ethical values in the following areas: relationships with students, including those with special needs or from diverse backgrounds relationships with supervisors and colleagues relationships with parents and community stakeholders activities related to school policies activities related intellectual property (unauthorized usage and/or plagiarism)	Clear commitment to ethical values in the following areas: relationships with students, including those with special needs or from diverse backgrounds relationships with supervisors and colleagues relationships with parents and community stakeholders activities related to school policies activities related intellectual property (unauthorized usage and/or plagiarism)  Shows, through narrative, active investigation of

	Not Demonstrated or Unsatisfactory	Needs Improvement	Satisfactory	Target
				ethical issues and deliberate choices.
Initiative – communication  NCTM 6b	Fostering collaboration through communication with peers, parents or students was not addressed in any meaningful way.	Gives one example of communication that fostered collaboration with peers, parents or students.  Gives one example of communicating their subject-specific thinking coherently and clearly to peers, faculty, and others.	Gives more than one example of communication that fostered collaboration with peers, parents and students.  Gives more than one example of communicating their subject-specific thinking coherently and clearly to peers, faculty, and others.	Gives several examples of extensive and meaningful communication that fostered collaboration with peers, parents and students.  Gives several examples of communicating their subject-specific thinking coherently and clearly to peers, faculty, and others.
Participation in professional activities  NCTM 6b	Demonstrates little to no effort to participate in professional activities.	Participates in at least one professional activity somewhat related to the field of teaching.	Participate in more than one professional activity clearly to the field of teaching; may be suggested or encouraged by mentors or faculty.	Takes initiative to activity participate in more than one professional activity clearly related to the field of teaching.

# Preparing and designing Safety and Security Guide in Science Laboratories

#### Firstly: Section One:

Dear student, this activity asks you to observe, analyze and evaluate one of the laboratory activities in one of the science classes (Biology-Chemistry-Physics), in light of your knowledge of the safety and security precautions to be taken into account in science classes.

The following are some elements that will help you write an analytical essay. The essay includes the pros and cons, your reflection on that activity; and the reflection on applying science skills and ethics in light of following security and safety standards; and the improvements you propose to develop the use of security and safety rules in science classes.

#### The Elements:

1. Availability of security and safety symbols (signs) in the	available	Available to an	not
laboratory.		extent	available
2. Availability of safety and security rules, which should be	available	Available to an	not
followed by students in the science classes (Rules).		extent	available
3. The security and safety precautions that are applied while	available	Available to an	not
students use equipment and materials in the laboratory.		extent	available
4. The teacher's observance of security and safety precautions	available	Available to an	not
while performing the laboratory activity.		extent	available
5. There are instructions for dealing with living organisms	available	Available to an	not
(plant / animal), if any.		extent	available

#### Secondly: Section two:

Write an in-depth analytical review essay based on your notes in the first section of about two pages.

#### Thirdly: Section three:

You are required to prepare a guide for the science laboratory (chemistry, biology, or physics) for the preparatory or secondary stage, according to your specialization. This guide contains the following:

a. The design of a science laboratory (chemistry, biology, or physics) depends on your specialization.

This design includes the best practices for the physical arrangement of science laboratories, so that it is taken

into account when making the design that it clearly shows the arrangement of an effective science laboratory that allows the teacher and students to smoothly move to easily reach places.

#### This design includes the following components:

- 1- Places to store the materials used in the laboratory.
- 2- Places to save devices and tools.
- 3- Security and safety tools.
- 4- Places for laboratory tables.
- 5- Laboratory seats.
- 6- Blackboard and teacher's table.
- 7- Safety and security instructions in the laboratory.
- 8- Location of the windows and door.
- 9- The trash can of the laboratory.

#### In addition to the special design in the laboratory, the guide must include the following:

- b. The security and safety rules that students are required to follow in the laboratory, when entering the laboratory, while being in it, during experiments and when leaving the laboratory.
- c. A comprehensive description of the security and safety tools in the laboratory, and how to use and deal with them under the supervision of the teacher and the laboratory administrator.
- d. A description of the existing substances (such as acids and alkaline....) in the laboratory and their location, mentioning the best practices for the storage, use and disposal of materials and the security and safety procedures for their use.
- e. A description of laboratory instruments and devices (such as test tubes and microscope...), their location and the security and safety procedures for their use.

### Analysis and Evaluation Rubric – Safety and Security (Science)

## السلم التقييمي لواجب التحليل والتقييم-الأمن والسلامة (علوم)

	Unsatisfactory or not Demonstrated	Needs Improvement	Satisfactory	Target	Score/Level
Analysis	Analysis is shallow and/or is not based on accepted practices in legal, ethical, or safe practice.	Analysis omits several important elements related to legal, ethical, or safe practice.	Analysis is based on accepted practices in legal, ethical, and safe practice, although some important elements are omitted.	Analysis is thorough and based on best practices in legal, ethical, and safe practice; no important elements are omitted.	
Evaluation	The evaluation is not based on evidence, or the evidence is not reported	Overall, the evaluation lacks clarity; there are problems relating the evaluation to the evidence reported.	Overall, the evaluation is supported by the evidence reported, although some areas lack clarity,	Evaluation is thoughtful and is clearly supported by the evidence reported.	
Quality of room design NSTA 4a	Serious safety issues are noted; description of purpose and use is not evident or clearly inadequate.	Design has some safety issues, none serious. Description of purpose and use is limited.	Design incorporates accepted practices for the physical arrangement of science labs; description gives purpose and use of most safety element, no safety issues are evident.	Design incorporates best practices for the physical arrangement of science labs; description is thorough and clearly and correctly gives purpose and use of each safety element; no safety issues are evident.	
	Standard: NSTA Standard 4: Safety demonstrate and maint organisms needed in the Element: 4a) Preservice teachers proper techniques for the	ce Science Standards (  2. ## Task values and grading system

Each task during your field training has a value in the general average of the course, and the final score is calculated and introduced to you by the college supervisor.

Arabic language and Islamic studies			
Task	Maximum mark		
Parent contact report	5		
Portfolio and weekly journals	5		
Midterm and final journal report	20		
Teaching Unit*	44		
Mid-term assessment of performance in field training (CEES)	average of 4		
Final assessment of performance in field training (CEES) *	average of 4		
Technological lesson (technology for learning project)	20		
Assessment practices (assessment analysis)	20		
Action Research	28		
E.folio E.folio	64		
Seminar	20		

Social studies			
Task	Maximum mark		
Parent contact report	5

<sup>\*</sup> Note: You must fulfill these requirements and obtain an average level of success or higher to achieve the mark of success in field training, which is C.

<sup>\*</sup> A particular equation will calculate the ratio for each task.

Grading system at Qatar		
University		
A = 90 - 100		
B+=85-89.99		
B = 80 - 84.99		
C + = 75 - 79.99		
C = 70-74.99		
D+ = 65 - 69.99		
D = 60 - 64.99		

#### Handbook Acknowledgement

My signature below acknowledges that I have read the field training handbook and agree to abide by the standards, policies, and procedures defined or referenced in this Handbook. I understand that I have an obligation to inform my university supervisor of any changes in personal information, such as name, phone number, or address. I also accept responsibility for contacting my college supervisor or program advisor if I have any questions or concerns, or if further explanations are needed.
